

## DRAFT ANNOUNCEMENT FOR THE AWARD OF A RESEARCH FELLOWSHIP

**Title:** Research Fellowship for Bachelor degree holder- AIPhotoBrain; 1 vacancy

**Reference:** 2024.16060.PEX\_BI-01/2026- CMEMS

A call for applications is now open for the attribution of one grant of Research Fellowship for Bachelor Degree holder within the scope of the I&D project *AI-Assisted Brain Tumour Contour Detection with Photoacoustic Technology*, reference 2024.16060.PEX, funded by national funds from the State Budget component through the Foundation for Science and Technology, I.P. (FCT), in the R&D Projects in All Scientific Fields Program, under the following conditions:

**Scientific Area:** Biomedical Engineering

**Recipient category:** Bachelor enrolled in an integrated master's degree, a master's degree in Biomedical Engineering.

### Requirement for granting the fellowship:

- The applicants may apply without prior registration in the course for which the fellowship is open. The requirement to enrol in a degree course or non-academic degree course will be verified on the date of contracting the fellowship;
- Only fellowships whose selected applicants present a valid proof of enrolment in a degree course or non-academic degree course will be contracted, according to the type of the fellowship, issued by a Higher Education Institution, indicating, respectively, the academic year or its duration (start and term).

**Applicants' eligibility:** Candidates who meet the conditions set out in Article 9 of the Research Grant Regulations, No. 950/2019, of 16-12-2019, of FCT I.P. are eligible.

Nationals or citizens of other European Union member states, third-country nationals, stateless persons, and citizens with political refugee status are eligible to apply for this competition.

### Candidate eligibility requirements:

- a) Graduates in Biomedical Engineering with knowledge in medical electronics. Proof of academic qualifications completed within the application deadline is required for hiring, including those resulting from degree recognition processes;
- b) Preferred factors: clear demonstration of a desire to pursue studies in medical electronics, with a particular interest in high-frequency systems (acoustics, optics, RF, waves, guided and

unguided propagation). Preference will be given to students pursuing a master's degree in medical electronics.

**Workplan and objectives to be achieved:**

The fellow's work plan aims the assembly of the measurement system, using photoacoustics, to allow the generation of ultrasound signals with a pulsed laser and a photoacoustic target, and the detection of ultrasound waves reflected by the phantom with laser interferometry. The PAUS measurement system will consist of a transmitter (TX) and a receiver (RX). The TX is composed of an optical fiber coated with a photoacoustic target, and the RX is an optical fiber coupled to an interferometer. Since the desired ultrasound frequency must be high to capture the tumor boundary, which can be very superficial, the RX must have a data acquisition system with a high sampling rate, bandwidth, and sensitivity. For this, a software-defined radio (SDR) will be used. For signal acquisition, it will also be necessary to propose and develop a phantom with acoustic properties that mimic brain tissue, and it will be necessary to produce a photoacoustic material with properties according to the intended laser and ultrasound.

**Applicable legislation and regulations:** Research Fellow Statute (EBI), approved by Law nº. 40/2004 of August 18, in its current wording and FCT Research Fellowship Regulation, approved by Regulation nº 950/2019, published in the Diário da República, 2nd series, of December 16, 2019, in its current wording, and Scientific Research Fellowship Regulation (RBIC) of the University of Minho, approved by order nº 4998/2025, published in the Diário da República, 2nd series, nº 81, of April 28, 2025 Amended and republished through amendment statement no. 634/2025/2, published in the Official Gazette, 2nd series, no. 132, of July 11.

**Host/Contracting institution and scientific supervision:** The workplan will be carried out in the Center of MicroElectroMechanical Systems –CMEMS, a research centre of University of Minho, located in the Gualtar Campus, Braga, under the scientific supervision of the Prof. Paulo Mateus Mendes and coordination by Prof. Luis Miguel Valente Gonçalves.

**Fellowship duration:** The grant will take place for a period of 9 months, with a provisional starting date on month of July of 2026. The fellowship grant may, eventually, be renewed up to the maximum limit allowed by the project and/or applicable legislation.

**Amount of the research grant:** The amount of the grant corresponds to 1090,98 €/month, according to the table of values of the Research scholarship of the University of Minho, updated annually, as decided by the Management Board.

Payment is made on the 23rd of each month, through bank transfer to the Bank Identification Number of the fellow identified in the contractualization process.

**Other components of the research grant:** Define other components of the scholarships, as provided for in Article 18º of the FCT Research Scholarship Regulations (RBI).

**Other benefits:** Reimbursement of Voluntary Social Insurance, if the candidate chooses to receive it, corresponding to the 1st level of discounts (for research grants with a total duration 6 months or higher) and personal accident insurance.

**Exclusivity regime:** The grantee will perform the activities under exclusivity, as foreseen in article 5º of the Research Fellow Statutes and applicable regulations.

**Selection panel:**

President: Doctor Paulo Mateus Mendes, Full Professor from Industrial Electronics Department of University of Minho;

Effective Member: Doctor Carlos Alberto Batista da Silva, Associate Professor from Industrial Electronics Department of University of Minho, and Doctor Graça Maria Henriques Minas, Associate Professor with Habilitation from Industrial Electronics Department of University of Minho;

Substitute member: Doctor Alexandre Manuel Teixeira Barros Ferreira da Silva, Assistant Professor from Industrial Electronics Department of University of Minho, and Doctor Luís Miguel Valente Gonçalves, Associate Professor of Industrial Electronics Department University of Minho.

The first effective member will substitute the President of the selection panel in case of impediment, being nominate the first substitute member in the place of the first effective member.

**Criteria and procedures for applications assessment and selection:** The applications assessment will focus on the candidate's Merit, following evaluation criteria, valued on a scale of 0 to 5 values (or another scale):

Applicant Merit - AM (100%):

- a) Academic path (reflecting academic degree grades), with a weighting of 60%;
- b) Proven knowledge in the field of medical electronics, with a weighting of 10%;
- c) Personal curriculum vitae (considering professional and scientific background), with a weighting of 10%;
- d) Motivation letter, with a weighting of 20%.

The final classification of the applicant's merit with the achieved through the following formula:

$$MC = (a * 60) + (b * 10) + (c * 10) + (d * 20)$$

**Application deadline and submission:** The call for applications is open for a period of 10 working days from the date of publication on the Euraxess portal.

Applications must be submitted by email to paulo.mendes@dei.uminho.pt, indicating the reference number of the competition in the subject line. Only applications submitted within the established deadline and accompanied by the following documents will be accepted:

- a) Candidate's updated curriculum vitae;
- b) Certificates of the academic degrees obtained or, if applicable, the candidate's declaration of honor that he/she has completed the degrees required in the notice by the application deadline (not applicable to research initiation grants).

For degrees obtained abroad, the record of recognition of the academic degrees and record of the conversion of the respective final classification to the Portuguese classification scale must be presented, or, alternatively, a declaration of honor from the candidate.

This declaration must attest to facts that occurred prior to the application. In the event of a discrepancy between the information contained in the declaration and the documentation submitted for the purposes of contracting the scholarship, only the information contained in the latter will be considered. If it is found that the documents proving the academic degree and diploma, or their recognition under the terms of Decree-Law n. º 66/2018, of August 16, do not correspond to the classifications awarded in the assessment of the academic career and may consequently alter the candidate's ranking, the scholarship will not be contracted;

- c) Letter of motivation explaining the eagerness for developing activities within the indicated work plan, at the indicated institution, explaining how your current knowledge and training interests fit the position in question.
- d) Other documents that the candidate considers relevant to the evaluation process.

**Form of publication/notification of results:** The results of the evaluation are published in a single list in alphabetical order, posted in a visible and public place in the host unit, as well as by email to all candidates, attaching, for this purpose, the minutes of the jury's deliberations, within a maximum period of 90 working days from the deadline for submission of applications.

Candidates are informed, at a preliminary hearing, in accordance with Articles 121 and 122 of the Administrative Procedure Code, of the likely outcome of the final decision, and may comment within 10 working days of this notification.

An appeal may be lodged against the final decision within 15 working days, or an appeal may be lodged with the highest executive body of the funding entity within 30 days, both after the respective notification (Article 12(nº6) of the FCT Research Grant Regulations).

Within 10 working days of notification of the grant award, the applicant must declare their acceptance in writing. In case of non-acceptance, the next highest ranked applicant will be notified immediately.

**Fellowship contractualization:** The scholarship is awarded through the signing of a contract between the University of Minho and the scholarship recipient, in accordance with point 2.4 of the Rules for the Award and Management of Scholarships

[https://www.fct.pt/wpcontent/uploads/2022/03/Normas\\_de\\_Atribuicao\\_de\\_Bolsas\\_2021.pdf](https://www.fct.pt/wpcontent/uploads/2022/03/Normas_de_Atribuicao_de_Bolsas_2021.pdf) and the draft contract in Annex II of the University of Minho's Scientific Research Scholarship Regulations.

The contract can only be signed after receipt of all the documentation required for the type of scholarship, which must occur within a maximum period of 6 months, including proof of academic degrees or diplomas, as well as enrollment in non-degree study cycles or courses, as applicable.

Once all the documentation has been received, the contracting entity has 60 working days to sign the scholarship contract. Once received by the scholarship holder, the contract must be returned, duly signed, within 15 working days.

**Term and cancellation of fellowship contracts:** Without prejudice to the other grounds laid down in the University of Minho's Scientific Research Scholarship Regulation and in the Research Fellow Statute, the scholarship will cease on completion of the contracted work plan, as well as on expiry of the period for which it was granted or renewed.

The **final report** must be submitted to the scientific advisor, in accordance with the defined objectives and evaluation criteria, no later than 60 working days after the end of the scholarship and must be drawn up in accordance with Annex I of the Regulations of the University of Minho.

**Non-discrimination and equal access policy:** Universidade do Minho actively promotes a policy of non-discrimination and equal access, so that no candidate may be privileged, benefited, harmed or deprived of any right or exempt from any duty due, namely, to ancestry, age, sex, sexual orientation, marital status, family status, economic situation, education, social origin or condition, genetic heritage, reduced working capacity, disability, chronic illness, nationality, ethnic origin or race, territory of origin, language, religion, political or ideological convictions and trade union membership

## Declaration of Honor

### Academic qualifications

I, (full name), candidate for the vacancy for the award of a (type of scholarship), within the scope of the project (name or reference of the project), published on the Euraxess portal, with the reference (ref. notice), declare on my honor that I have completed the academic degree of (academic degree), qualifying for the type of scholarship in the competition, namely the course (designation), by the (University conferring the degree), on the date XX/XX/XXXX, with a final average of XXXXX values on the YY scale.

As it is not possible for me to present proof of qualifications until the end of the competition, I declare that I undertake to present the aforementioned certificate at the conclusion of the scholarship contract, in the event that I am selected for the vacancy in the competition.

As this is true, I hereby date and sign this declaration.

(Place), (date).

---

(full name)

NOTE: The declaration may only attest to facts that occurred prior to the application.

In the event of a discrepancy between the information contained in the declaration and the documentation submitted for the purpose of contracting the scholarship, only the information contained in the latter will be taken into account.

### Declaration of Honor

I, (full name), bearer of identification document number (XXXX), candidate for a research grant (type of grant), within the scope of the project (name or reference of the project), published on the Euraxess portal, with the reference (ref. call for proposals), declare on my honor that (I have not received any research grants to date / I have received the following research grants) under the Research Grant Holder Statute.

University	Financing Entity	Project	Type of Grant	Duration	Start	Term

As this is true, I hereby date and sign this declaration.

(Place), (date).
